

There is some work, not covered by the NHS which GPs charge for. At the Hampstead Group Practice we follow the British Medical Association's guidelines for non-NHS charging.

The list below is not exhaustive and in some cases there is a range of charges suggested as forms vary in requirements and work volume. It is up to the individual doctor what the final charge will be.

Please refer to the document on our website entitled *why GPs charge fees* or ask for a copy at reception if you would like more information.
